

Communication and Language, Literacy

Key text: *We're Going on a Bear Hunt*

This half-term we will be learning to focus on listening and attention skills during play and whole-class learning. We will be practising taking turns when talking to our friends.

We will explore our key text '*We're Going on a Bear Hunt*', and learn to retell the story orally using our story map. We will investigate the key vocabulary from the story and use it during our play. We will sequence the beginning, middle and end and discuss the characters we meet.

Phonics

We will be focussing on learning initial sounds and oral blending and segmenting using Read, Write Inc. We will be sending home some links and a phonics booklet for children to practise learning the new sounds.

Expressive Arts and Design

We will be learning to develop our creative skills by using different medium to make a range of marks. We will explore how unique we are and express this through our self-portraits. We will learn to use the resources in our environment to create purposefully and talk about what we have created. For example, we will learn to explore using construction blocks, dressing-up costumes, puppets and junk modelling.

Reception Curriculum Map Autumn 1 2023

Values

Responsibility, courage, honesty, caring

Reminders

Please send in a family photo by Wednesday 20th September.

We need your junk! Please send us clean, recyclable materials for our junk modelling area.

Understanding the World

We will be familiarising ourselves with our new environments around the school. There will be a special focus on our families and people who help us in our local communities. Using our story, we will focus on simple journeys using a map. We will explore natural materials using our senses.

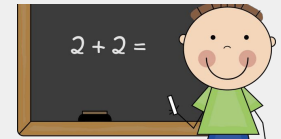

Physical Development

We will be practising our gross motor and fine motor development. We will use a range of equipment such as the trim trail, ribbons, bikes and brushes to develop our gross motor skills. We will also practise our fine motor skills using 'Dough Disco' and activities such as threading and sorting using tweezers. We will be developing our spatial awareness indoors and outdoors.

Maths

In Maths we will be matching quantities to numerals and identifying how many are in a group. We will be working with numbers 1 - 3 and learning to count with one-to-one correspondence.

During continuous provision, we will be exploring shape and patterns, talking about we notice.

Personal, Social and Emotional Development

This half-term, we will focus on settling-in to our new class and learning new routines. We will be discussing expectations for playing and learning using our 3 school rules, "**Be Kind, Be Safe, Be Responsible.**"

We will concentrate on learning our friends' names and familiarising ourselves with adults in our environment. During our play, we will practise turn-taking and sharing.

We will also start our tooth brushing practice.
